

Collaboration Call 4/11/19

- timeline updates

Timeline Update

- **5.0** – April 30th 2019
Includes:
 - Landing Page Export – Investments, Edu. Enrollments, Projects, C. Projects
 - Simple PubMed job scheduler!
 - Investigator Publication Review (IPR) usage report
 - IPR - Investigator-Specific “All pubs vs internally reviewed” controls
 - Investments – Attachments
 - Grant Import – Titles optional (no more re-cleaning!)
 - Investments – Additional Fields
 - Grant (lifetime) Notes field
 - Educational Enrollments – Publication & Leveraged Grant links
 - *Prerequisites* for updated pubs export report with type-specific collaboration
- New Release Schedule is 3 per year: April (5.0), August (5.1), December (5.2)

○

- on track to complete this, just doing final testing now
- collaborative publication matrix with member type parameter is coming, can get an early version if needed
 - Lauren really wants it for EAB

Timeline Update

- **5.1** – August 2019
- **5.2** – December 2019

Backlog Order:

- Investments Import
- Educational Enrollments Import
- Investigator Publication Review (IPR) – Cancer Relevance
- IPR & “Normal” Pub Review – Shared Resources
- Streamlined Publications Citation Report
- Grant Import – New unique ID options
- Grant Import – Allow period date updates
 - **REQUIRES SEPARATE GRANT LIFETIME & PERIOD IMPORTS**

○

- ordered by priority roughly
- no objections to splitting grant lifetime and period imports into two different imports

- collaborator topics

Collaborator Topics

Pilot-RFA links/tags

Are you linking pilot awards to specific RFAs?

If so, how?

If not, do you want to?

○

- yes, would be useful

Collaborator Topics

Activity Code DP2

DP2 Awards are coded as Training in EVAL (like all D/F/K/T awards), and appear on a Training 2A report

<https://grants.nih.gov/grants/guide/rfa-files/RFA-rm-18-008.html> suggests a Research coding. Concerns?

- - no objections to making this change

Collaborator Topics

Publications Landing Page

A “Reviewed Y/N” filter is a frequent request, but is very hard.

A “Linked Y/N” filter is **much** easier. Does it get us 80%?

- - could do a filter pretty easily if the pub is linked to any people
 - would filter these out by default
 - mild agreement to implement this and put on by default

Collaborator Topics

Publications Citation Report

Requested – a streamlined citation report with formatting options like selected membership types bolded/underlined

Courtesy of Yale Cancer Center, another formatting option – Word!

TBD IF THIS IS POSSIBLE IN EVAL

We'll research if there's interest

- - report from Yale

**VIRUS AND OTHER INFECTION-ASSOCIATED CANCERS (VOIC) PUBLICATIONS
CALENDAR YEAR 2016 – MARCH 2017**

SELECTED PUBLICATIONS
Virus and Other Infection-associated Cancers (VOIC) Program Members in **bold**
All other Cancer Center Program Members in underline
(Sorted in reverse chronological order)

Total Number of Publications: 81
*Intra-programmatic publications: 7 (9%)
**Inter-programmatic publications: 15 (19%)
**/*Intra/Inter-programmatic publications: 4 (5%)

 1. **Iwasaki A**
Immune Regulation of Antibody Access to Neuronal Tissues.
Trends Mol Med 23: 227-245 (03 /2017)
PM ID: 28185790
 2. Cheraghlou S, Kuo P, **Judson BL**
Treatment delay and facility case volume are associated with survival in early-stage glottic cancer.
Laryngoscope 127: 616-622 (03 /2017)
PM ID: 27653749
 3. Mane A, Sahasrabudhe VV, Nirmalkar A, Risbud AR, Sahay S, Bhosale RA, **Vermund SH**, Mehendale SM
Rates and determinants of incidence and clearance of cervical HPV genotypes among HIV-seropositive women in Pune, India.

PM ID: 28152432
 4. Luque MT, Jenkins CA, Shepherd BE, Padgett D, Rouzier V, Succì RC, Machado DM, McGowan CC, **Vermund SH**, Pinto JA
Mortality in Children with Human Immunodeficiency Virus Initiating Treatment: A Six-
 - is word a better place to start with this than excel?
 - there is interest in this, but lot's of debate on the details here

Forte Topics

IPR Review Questions

1. When do we start showing a pub to investigators for this? When do we stop?
 1. Same for "normal" review - When do we start showing a pub for this? When do we stop?
 2. Is there any appetite for service level, or should we start with service provider only, possibly adding service in the future?
 3. Any concern about redundant data from two authors on a pub?
 4. Service Usage Report - Want one? What's in it?
 5. Negative assertion need? - "yep that's me, didn't use anything"
- o
- UCLA
 - currently use a web app
 - do their review based on a grant period
 - their faculty reviews pubs once for author, another time for services
