

Process to Get from Idea to Production

This outlines the tasks needed to get a dashboard or Qlik app from idea to production.

Q: How long will it take?

A: At minimum, in an existing stream, with an existing knowledgeable developer, using existing data sources that do not require additional security, this process could take as little as one month. Asterisks indicate tasks that could significantly increase the time to production.

Phases	Always Required	Tasks	Responsible Party	Sequential & Concurrent Tasks
Pre-development	<input checked="" type="checkbox"/>	New idea proposed	Stakeholder	
	<input checked="" type="checkbox"/>	Requirements gathering	Developer, with Stakeholder	*
	<input type="checkbox"/>	If new stream, identify stream admin	Stakeholder, with Qlik SME	
	<input type="checkbox"/>	If new developer, submit request to add developer to Qlik	Stream Admin	
	<input type="checkbox"/>	--- Confirm HIPAA training completed	SMPH IT	
	<input type="checkbox"/>	--- Add developer to Qlik	SMPH IT	
Development	<input checked="" type="checkbox"/>	Research/understand available data sources	Developer, with Qlik SME	*
	<input type="checkbox"/>	Create new security rules, if necessary	Qlik SME, with developer input	
	<input type="checkbox"/>	Initial build of any needed QVDs	Developer, with Qlik SME	*
	<input checked="" type="checkbox"/>	Initial build of the app	Developer	*
	<input checked="" type="checkbox"/>	Demo to developers group	Developer, in coordination with Qlik SME	
	<input type="checkbox"/>	Standardize data sources	Developer, with Qlik SME	*
	<input checked="" type="checkbox"/>	Final review and approval for move to Qlik Test environment	Stream Admin	
Testing	<input checked="" type="checkbox"/>	App moves to from Qlik Dev to Qlik Test environment	Developer, with Qlik SME	
	<input type="checkbox"/>	Configure any new data connections in Test environment	Qlik SME	
	<input type="checkbox"/>	Configure any new security rules in Test environment	Qlik SME	
	<input checked="" type="checkbox"/>	User acceptance testing	Developer, Stakeholder, others as needed	*
	<input checked="" type="checkbox"/>	Refinements to app	Developer	*
	<input checked="" type="checkbox"/>	Demo to stream admin and SMPH IT rep	Developer, in coordination with Qlik SME	
Production	<input checked="" type="checkbox"/>	App moves from Qlik Test to Qlik Production environment	Developer ? requires export/import QMC	
	<input type="checkbox"/>	Configure any new production security rules	Qlik SME with Developer	
	<input type="checkbox"/>	Configure any new data connections	Qlik SME with Developer	
	<input type="checkbox"/>	Schedule data jobs in Qlik Production	Developer, with Qlik SME	
Documentation	<input checked="" type="checkbox"/>	App documentation added to Confluence Qlik	Developer	
	<input type="checkbox"/>	New data documentation added to Confluence Qlik (if used by > 1 app)	Developer, if area specific, otherwise Qlik SME	
				* indicates task that may significantly expand the time to get to production
