Tutorials / videos available on UW Box

- **First Steps with Qlik**

- [Qlik Basics Tutorial](#) (Please download the PDF)

Once you get set up with access to the Development environment, you'll see that **there is a sample app available in the "Everyone" stream in the enterprise Development environment**. You can use the PDF from Box to work with your very own copy of the App in the development environment. Please make your own copy to work with by right-clicking on the App, and choosing "Duplicate". A copy should appear in your **Work** area.

- **For Developers or Qlik Business Analysts**

- [Qlik Sense Business Analysts Course](#) (To get a better understanding of building visualizations)

- **For Developers or Data Analysts**

- To get a better understanding of how data works and is structured in Qlik:
