SMPH VPN - Viewing users logged into globalprotect

Step-by-step guide

How to view current or previously logged in SMPH VPN user information.

1.) Log into Panorama (https://panorama.net.wisc.edu). In the upper-left hand corner beneath the UW-Madison logo, there is a drop down. Click the drop down, then select the **Animal-Primary** firewall.
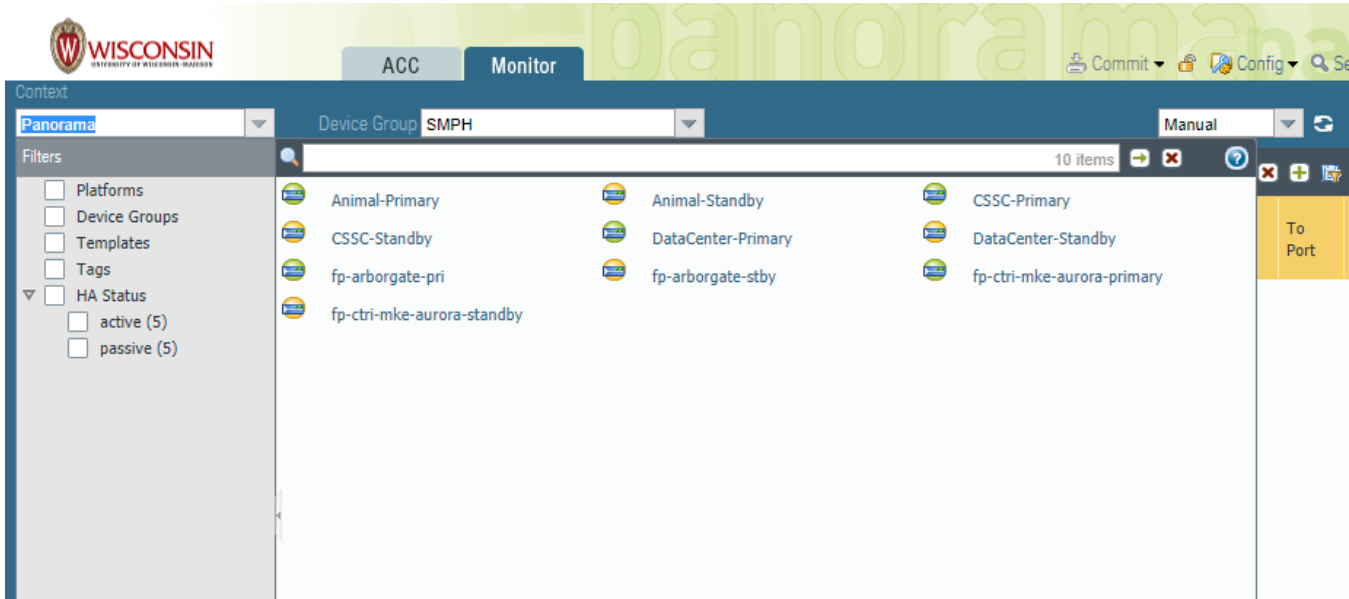

2a.) Once the page has loaded, click on the **Network** tab, and in the left-hand panel under **GlobalProtect** click **Gateways.** Find the **SMPH-Gateway** in the list.
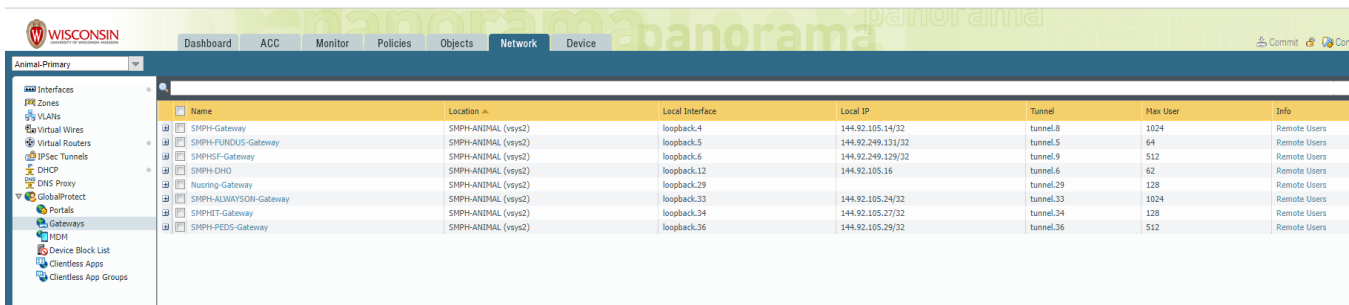

2b.) Look to the right side and click **Remote Users.**

3.) In the Remote Users window you can filter on any of the columns within the window. Simply type in what you'd like to search for and it will automatically filter. You can also click the **Previous User** tab and view the same information for previously logged in users.

User Information - SMPH-Gateway
